[YOUR FULL NAME]

[City, State/Country] | [Phone Number] | [Email Address] | [GitHub Profile URL / Portfolio]

TECHNICAL SKILLS

Languages: [List programming languages, e.g., Python, JavaScript, Java, C++, SQL]

Frameworks & Libs: [List web or technical frameworks, e.g., React, Node.js, Express, Django, PyTorch]

Tools & Platforms: [List dev tools, cloud platforms, e.g., Git, Docker, Kubernetes, AWS, Linux]

TECHNICAL / ENGINEERING EXPERIENCE

[Engineering Title / Job Role] **[Start Date] – [End Date / Present]**

[Company / Organization Name] | [Location]

- [Technical Action Verb] + [System/Feature built] + [Scale/Throughput metric achieved].
- [Technical Action Verb] + [Optimization implemented] + [% or ms performance improvement].
- [Technical Action Verb] + [Tools/Services integrated] + [Business impact].

[Previous Engineering Title] **[Start Date] – [End Date]**

[Company / Organization Name] | [Location]

- [Technical Action Verb] + [System/Feature built] + [Scale/Throughput metric achieved].
- [Technical Action Verb] + [Optimization implemented] + [% or ms performance improvement].

FEATURED PROJECTS

[Project Name] [Tech Stack Used, e.g., Python, Docker]

[Describe what the system does, key technical hurdles solved, and metrics like downloads, stars, or processing speeds.]

[Project Name] [Tech Stack Used]

[Describe what the system does, key technical hurdles solved, and metrics.]

EDUCATION & CERTIFICATIONS

[Degree, e.g., B.S. in Computer Science] — [University Name] **[Graduation Year]**

[Certification / Tech Accreditation 1] [Certification / Tech Accreditation 2]
